

Mineral Resource and Ore Reserve Estimation

The AusIMM Guide to Good Practice

Chapter 1 | An Overview and Outline

Overview	<i>J T Baldwin, J H Lew and M F Whitham</i>	3
Managing Risk in Feasibility Studies	<i>P L McCarthy</i>	13
Common Sense and Good Communication – Effective Team-Based Estimation and Classification of Mineral Resources and Ore Reserves	<i>J Vann, P R Stephenson, S Jackson and G Pilger</i>	19
JORC and the Canadian Institute of Mining, Metallurgy and Petroleum Definition Standards – Major Changes and Developments for Competent Persons	<i>J Coombes</i>	33

Chapter 2 | The Resource Database

Overview – The Resource Database	<i>N Hanson</i>	43
Design Principles of Relational Databases and Management of Data Flow for Resource Estimation	<i>M Z Abzalov</i>	47
Sampling and Analysis Protocols and Their Role in Mineral Exploration and New Resource Development	<i>S Roden and T Smith</i>	53
Geological Data Collection for Reliable Coal Resource Estimation	<i>D R Green</i>	61
A Review of the Reliability and Validity of Portable X-Ray Fluorescence Spectrometry (pXRF) Data	<i>M F Gazley and L A Fisher</i>	69
How Sampling Biases Can Induce Decision-Makers to Make Wrong Decisions – An Introduction to Qualitative Sampling Theory	<i>P M Gy and D M François-Bongarçon</i>	83
Practical Considerations and Shortcuts in Sampling	<i>D M François-Bongarçon</i>	87
Geostatistical Criteria for Choosing an Optimal Ratio between Quality and Quantity of Samples – Method and Case Studies	<i>M Z Abzalov</i>	91
Measurement of Bulk Density for Resource Estimation – Methods, Guidelines and Quality Control	<i>I T Lipton and J A Horton</i>	97
Collection of Geotechnical Data from Drill Holes	<i>A van As</i>	109
Use and Abuse of Oriented Drill Core	<i>B K Davis</i>	121

Chapter 3 | Geological Interpretation and Geological Modelling

Overview – Geological Interpretation and Geological Modelling	<i>E J Cowan</i>	137
Geological Interpretation for Resource Modelling and Estimation	<i>J H Duke and P J Hanna</i>	145

Best Practice in Coal Exploration and Resource Evaluation	<i>A Waltho, S Kristensen and C Harman</i>	155
The Do's and Don'ts of Geological and Grade Boundary Models and What You Can Do About It	<i>J F H Barnes and B L Gossage</i>	175
A Checklist for Grade Control	<i>H Hoogvliet, A Grieve and D Sims</i>	189
Calculated Mineralogy and Its Applications	<i>S Halley</i>	199
'X-Ray Plunge Projection' - Understanding Structural Geology from Grade Data	<i>E J Cowan</i>	207
Practical Implicit Dyke Modelling for Resource Estimation - Newmont Boddington Gold, Western Australia	<i>D J Haddow and E J Cowan</i>	221
The Pursuit of Best Practice and Use of Innovative Techniques - Case Studies in Geological Interpretation and Modelling, Gold Fields - Growth and International Projects	<i>R Gradim, J Donaldson, J Levett, M Briggs, M Crawford, M Dusci and A Trueman</i>	229
Wireframe-Free Geological Modelling - An Oxymoron or a Value Proposition?	<i>E J Cowan, K J Spragg and M R Everitt</i>	247

Chapter 4 | Mineral Resource Estimation

Overview - Mineral Resource Estimation	<i>I Glacken and A Trueman</i>	263
Mineral Resource Estimation of the Brockman 4 Iron Ore Deposit in the Pilbara Region by Rio Tinto Iron Ore	<i>B Sommerville, C Boyle, N Brajkovich, J Phillips and A-A Latscha</i>	277
Multivariate Iron Ore Deposit Resource Estimation - A Practitioner's Guide to Selecting Methods	<i>C De-Vitry, J Vann and H Arvidson</i>	287
Tropicana Gold Mine, Western Australia - A Case Study of Non-Linear Mineral Resource Estimation	<i>M Kent, B Catto, M Doyle, D Gibbs, M Matheson, R Singer, B Kendall and J Vann</i>	301
Estimation of Underground Mineral Resources at the Sunrise Dam Gold Mine - A Case Study in Risk Management	<i>F Clark, J T Carswell, N A Schofield and M Erickson</i>	311
Mineral Sands - Some Aspects of Evaluation, Resource Estimation and Reporting	<i>G Jones, B Gibson and V O'Brien</i>	319
A Practitioner's Guide to the Identification, Classification and Estimation of Inventory Coal and Coal Resources	<i>K B Preston</i>	329
A Practitioner's Guide to Recoverable Resource Estimation Using Localised Uniform Conditioning	<i>O Rondon and A Trueman</i>	341
Resource Estimation in Folded Deposits - A Review of Practice and Case Studies	<i>I Glacken, P Blackney, D Gray and N Fogden</i>	351
Drilling of Mineral Resources - Towards Better Investment Decisions	<i>N A Schofield</i>	363

Chapter 5 | Non-Resource Inputs to Estimation of Ore Reserves – The Modifying Factors

Overview – Non-Resource Inputs to Estimation of Ore Reserves – The Modifying Factors	<i>M F Whitham</i>	373
The Influence of Geotechnical and Groundwater Factors on Ore Reserve Estimation	<i>T D Sullivan</i>	385
Selecting a Mining Method for Metalliferous Orebodies	<i>F Kaeshagen</i>	401
Transition from Open Pit to Underground Mining	<i>I T Ross</i>	409
Mining Dilution and Losses in Underground Mining	<i>P L McCarthy</i>	415
The Assessment and Management of Coal Recovery in Open Pit Mines	<i>A Scott</i>	419
Metallurgical Input to the Determination of Ore Reserves	<i>P J Lewis</i>	433
Geometallurgical Guidelines for Miners, Geologists and Process Engineers – Discovery to Design	<i>D David</i>	443
Assessment of Iron Ore Reserves – Rio Tinto’s Pilbara Experience	<i>G Danckert and L Fouché</i>	451
Case Study – Marketing of Industrial Minerals – Iluka Resources	<i>V E Hugo</i>	457
Mineral Resources and Ore Reserves of Industrial Minerals – Markets and Other Modifying Factors	<i>S Border and B Butt</i>	467
Infrastructure for Mining Developments	<i>F Blatt</i>	473
The Influence of Revenue and Cost Factors on Ore Reserve Estimation	<i>R P Watkins</i>	479
Environmental Constraints on Resource-to-Reserve Conversion	<i>M Ridd, P Eaglen and C Unger</i>	487
Community Consultation – The Ok Tedi Experience	<i>M Werror</i>	493

Chapter 6 | Ore Reserve Estimation

Overview – Ore Reserve Estimation	<i>G Dunstan</i>	503
Feasibility Studies – Scope and Accuracy	<i>M E White and I Harrington</i>	507
Reflections on Front-End Loading in Mine Project Development	<i>J H Shillabeer</i>	519
Whittle Optimisation – The Money Mining Methodology and Its Impact on Ore Reserves	<i>G Whittle</i>	525
Maximising the Value of Open Pit Gold Reserves – Where Are We Getting It Right?	<i>S Butel and A Ferrier</i>	529
Block Caving Software – Practical Applications	<i>J-A Dudley</i>	535
Reserve Estimation for Block Cave Mines Using PCBC	<i>T Diering</i>	547
Geotechnical Modifying Factors to Be Considered When Determining the Status of Longwall Reserves	<i>R W Seedsman</i>	557

Chapter 7 | Risk in Resource and Reserve Estimation

Overview – Risk in Resource and Reserve Estimation	<i>C De-Vitry</i>	573
Evaluating Resource Risk – The Due Diligence Process	<i>S Dunham</i>	579
The Importance of Understanding Uncertainty and Risk Associated with All Geological Inputs to Ore Reserves	<i>M Berry</i>	585
Scenario Thinking – A Powerful Tool for Strategic Planning and Evaluation of Mining Projects and Operations	<i>J Vann, S Jackson, A Bye, S Coward, S Moayer, G Nicholas and R Wolff</i>	593
Non-Technical Risks and Their Impact on the Mining Industry	<i>A Trench, D Packey and J P Sykes</i>	605
Exposing Uncertainty in Schedules for Proactive Stockpile Planning	<i>J Coombes, C Standing, R Lacourt Rodrigues and C Queiroz</i>	619
Reserves, Reserves and not a Tonne to Mine – A Study of Reserves Reported Prior to Mine Closure	<i>M Creech</i>	627
Back to Basics – Geological and Mining Risks and Financial Issues on Resource and Reserve Evaluation in Coal Projects	<i>H Arden and W Lewis</i>	635

Chapter 8 | Monitoring and Exploiting the Reserve

Overview – Monitoring and Exploiting the Reserve	<i>C Morley</i>	647
Predicting the Unpredictable – Evaluating High-Nugget Effect Gold Deposits	<i>S C Dominy</i>	659
Effective Grade Control Systems	<i>S Rose and G Fahey</i>	679
Grade Control Based on Economic Ore/Waste Classification Functions and Stochastic Simulations – Examples, Comparisons and Applications	<i>R Dimitrakopoulos and M Godoy</i>	685
Planning Strategies to Increase Project Value	<i>T Elkington</i>	701
Interpreting Long-Term Mine to Mill Trends at St Ives Gold Mine	<i>J Donaldson, C Ferguson and E Murray-Hayden</i>	707
Reconciliation Principles for the Mining Industry	<i>H M Parker</i>	721
Mining Reconciliation – An Overview of Data Collection Points and Data Analysis	<i>R Hargreaves and C Morley</i>	739
A Strategy to Minimise Ore Grade Reconciliation Problems between the Mine and the Mill	<i>F F Pitard</i>	749
Guide to Creating a Mine Site Reconciliation Code of Practice	<i>C Morley</i>	755

Chapter 9 | Classification and Reporting

Overview – Classification and Reporting	<i>J Coombes, G Fahey and P T Stoker</i>	767
Issues in Capital Raisings and Disclosure	<i>B Dodd</i>	771
Review of 2012 JORC Code and Comparison with National Instrument 43-101	<i>P R Stephenson and P T Stoker</i>	779
Estimating and Reporting Potential Mineralisation at BHP Billiton – The Unconstrained View	<i>M Mullins, P Hodkiewicz, J McCluskey, C Carey and J Terry</i>	791
Mineral Resource Classification – It’s Time to Shoot the ‘Spotted Dog’!	<i>P R Stephenson, A Allman, D P Carville, P T Stoker, P Mokos, J Tyrrell and T Burrows</i>	799
Reporting and Converting Resources to Reserves – How Confident Are We?	<i>M A Noppé</i>	805
Mine Design Stages in Russia	<i>A Tverdov and S Nikishichev</i>	815
Resource and Reserve Valuation Practices in Countries Forming the Russian Commonwealth of Independent States	<i>H Arden and A Tverdov</i>	825
Rio Tinto Mineral Resource and Ore Reserve Governance	<i>S J Hunt and C S Eldridge</i>	835
Liability Issues Arising in Relation to Exploration, Mineral Resource and Ore Reserve Reports Included in Takeover Documents	<i>F Gardiner-Hill</i>	839
Liability of Competent Person for JORC Reports	<i>K Livesley</i>	843
Competent Persons – Beyond JORC Code Requirements	<i>J Coombes</i>	849

Appendix | The JORC Code 2012
